The Modified Engine @ 8000 RPM. Note how the changes in the port timing also change the port area and time area. In this case the modified engine shows port time area @ 8000 that's almost the same as the stock engine at 7000 RPM.

Cognitive load theory is one of many ways of understanding how people learn and thus should help inform how we design simulation. • There is a limit to how much information people can process simultaneously, and this impacts how information is stored.

Personally, as a CFD engineer, CVP app let me use CFD as just a tool and complete the design work. Usually, one gets carried away by the mammoth amount of work (fluid volume extraction, cleanup, meshing, solver, convergence, post, report) involved in carrying out the CFD simulation and loose the focus on the design aspect of the valve.

Back pressure (or backpressure) is a resistance or force opposing the desired flow of fluid through pipes, leading to friction loss and pressure drop.

Doing Monte Carlo Simulation in Minitab Statistical Software. Doing Monte Carlo simulations in Minitab Statistical Software is very easy. This article illustrates how to use Minitab for Monte Carlo simulations using both a known engineering formula and a DOE equation.

A cam is a rotating or sliding piece in a mechanical linkage used especially in transforming rotary motion into linear motion. It is often a part of a rotating wheel (e.g. an eccentric wheel) or shaft (e.g. a cylinder with an irregular shape) that strikes a lever at one or more points on its circular path.

The QWERTY layout is a boon and a bane. It is a boon because it's everywhere and, if you learn to type on it, your skill is portable. It's a bane because its design makes typing more difficult than it should be.

Mercury Racing is pleased to announce the introduction of X-haust, a fully integrated sterndrive exhaust noise reduction system. X-haust was developed primarily to bring the HP600 SCi and EU662 SCi sterndrive engine packages, already certified by the European Union Recreational Craft Directive (RCD) requirements for exhaust emissions, in ...
